Product Description

Our A5 13 Gauge silicone glove offers great protection against heat, these gloves provide a durable, high dexterity option for resisting the adhesives and caulk. They also offer high flexibility while protecting materials such as glass and metal against fingerprints due to their non-marring coating.

Features

- Abrasion level 5
- Puncture level 2
- Conductive Heat Level 1, Up to 176° F/80° C (ANSI/ISEA 105-2016)
- EN 407 - X1XXXX
- Experience non-stop precision with our silicon-dipped gloves – where anti-slip meets unmatched control
