## Product Description

Clean with ease using glass knit microfiber cloths. Perfect for streak-free, lint-free wiping on glass and stainless steel surfaces. Great for chemical-free cleaning, but can also be used with household cleaning products. Microfiber cloths are used in many professional cleaning tasks because they easily trap dirt, water-based liquids, and oils. Microfiber cloths can be washed 100's of times, but bleach and fabric softeners should be avoided.
