Hi: Layers/Pallet	5
MOQ	250 pcs/Bale

Product Description

Edgeless plush microfiber polishing cloths. Perfect for quick detailing, waterless washing, polishing, buffing chrome, paint, shiny metals, and surfaces. Microfiber cloths are used in many professional cleaning tasks because they easily trap dirt, water-based liquids, and oils. Microfiber cloths can be washed hundreds of times, but bleach and fabric softeners should be avoided.
