## Product Description

Microfiber multipurpose towels are jumbo sized for big jobs. Popular in auto detailing and janitorial industries. Perfect for dusting, polishing and light scrubbing most surfaces. Great for chemical-free cleaning, but can also be used with household cleaning products. Microfiber cloths are used in many professional cleaning tasks because they easily trap dirt, water-based liquids and oils. Microfiber cloths can be washed 100's of times, but bleach and fabric softeners should be avoided.
