Product Description

Our premium bath towels are constructed from 16's cotton yarn and finished with a cam border creating a softer and more absorbent towel than economy bath towels. The power of terry towels lies in the cotton loop construction which provides more surface area in which to absorb liquids and trap dirt and debris. Tip: Washing and drying terry towels before initial use with open up the towel's fiber and remove lint. Industrial grade terry towels are made with lower quality grades of cotton yarn and it is normal to experience some shrinkage in towel size.

Features

- Terry loops are excellent for absorbing large amounts of liquid
- Terry loops are excellent at trapping and holding debris
- Terrycloth is soft yet durable
