Product Description

Made from the same process as our popular 11G-L grey string knits gloves, these gloves also are constructed from a balanced blend of poly-cotton (25%/75%) fibers. But, unlike our 11G-L gloves, these include PVC dots to improve grip and durability while not sacrificing their comfort. Great for light to medium tasks where hand warmth, comfort, and dexterity are important. Washable and reusable.

Features

- Dotted palm for enhanced grip
- Good abrasion resistance
- Grey hides the dirt
- Good durability

Available In
