

HPPE CUT PROTECTION LEVEL 5

Product Description

When choosing cut-resistant gloves it is very important that your governing safety body approves each and every style of cut-resistant glove for each specific task. Our gloves are constructed with liners that are knit with certain cut-resistant fibers like Kevlar, glass, metal mesh, Aramid, or HPPE. These fibers promote cut resistance while still permitting dexterity, comfort, and fit. These gloves unless CLEARLY indicated are not cut-proof. Wipeco Industries and its sales representatives cannot recommend any styles but can provide samples for your testing.

Features

- ANSI A5
- EN CUT388 :2016 ISO level E
- EN CUT:2003 cut level 5
- Polyurethane coating provides breathability
- Great dexterity
- Sanitized knit liner

SKU: A5PU-size

All Season Gloves
